# MADAN GOPAL

📍 Varanasi, U.P || 📞 +917905406447 || ✉ mgopal.0001@gmail.com
Github: https://github.com/mgopal0001

## PROFILE

A highly motivated and result-oriented professional with excellent teamwork, communication and interpersonal skills. Possesses an in-depth understanding of relevant industry concepts and practices, and a proven ability to work collaboratively with team members to achieve desired outcomes. Ready to take on new challenges and eager to contribute to organizational growth.

## PROJECTS

### CRYPTO GRAD AI Web Application
Technology: ReactJs

- Conceived and developed the CryptoGrad AI web application, an innovative platform designed to facilitate real-time conversations with users regarding cryptocurrency investments. This dynamic chatbot-driven system offers users the ability to pose questions and seek advice on various aspects of cryptocurrency investment.

### IPL DATA PROJECT
Technology: Node.js, HTML, JavaScript

- Implemented a comprehensive IPL Data Project, spanning 10 years of IPL data stored in CSV format. The primary objective was to extract, transform, and load the data by converting it into JSON format. Leveraging advanced data processing techniques, the project aimed to generate desired outputs based on specific queries.
